WORK EXPERIENCE

Software Engineer Fidelity Investments

01/2025 - Present

Galway, Ireland

- Successfully upgraded **Angular** based projects from version 15 to 20, resulting in initial page load upto 10 seconds faster.
- Implemented end-to-end testing with **Playwright** and streamlined CI/CD deployments using **Jenkins** leading to 2X faster and stable builds.
- Conducted thorough pull request (PR) reviews to maintain coding standards and best practices resulting in improved code quality.
- Performed OAuth version upgrades for both Angular and **Spring Boot** based repositories boosting security and compatibility with latest packages.
- Implemented contract tests, component tests and BUTs to enhance guardrails against unexpected outcomes.

Systems Engineer Tata Consultancy Services (TCS)

01/2023 - 08/2023

Bengaluru, India

- Built responsive webpages using **Angular**, **Redux**, **NgRx**, **RxJS** and integrated multiple **REST** APIs to onboard over 70000 users to the TCS BANCS platform.
- Led a team of 3 developers to enhance UI by improving **SCSS** styling, ensuring rich and consistent website rendering across all major browsers and mobile platforms leading to improved user experience.
- Reduced web page rendering time by 5% using custom pipes and directives, enhancing **SEO** metrics.

Application Development Associate Accenture

02/2021 - 08/2022

Bengaluru, India

- Upgraded web components from Angular v11 to v12 and implemented lazy loading modules, boosting website performance by up to 20%.
- Developed a scalable home automation website using the PrimeNG UI library, translating wireframes into responsive and reusable web components.
- Developed a responsive Pizza ordering website with Angular Material, Node.js, ExpressJs and MongoDB, ensuring order history persistence across page transitions and network disruptions.
- Using Karma, Jasmine, and Jest for unit testing, achieved over 90% code coverage.
- Collaborated closely with cross-functional teams (designers, backend developers, and QA engineers) in **Agile SCRUM** and **Kanban** environments to deliver business requirements on time.
